
Android 2.1 for Sony Ericsson Xper

Monday, 29 November 2010

Well if you have been aching to upgrade your existing Android to the latest Android 2.1 for the Sony Ericsson Xperia X8, you d be delighted to know that this particular update will soon be available for existing handset users. Surely, the Android 2.1 update will present so many additional features on your phone, and I m sure that you should definitely get this particular update too.

However, the additional features on the Android 2.1 would be available on selected Xperia X8 models only, and you should check your 8-digit SI-number in order to determine the eligibility of the update. Also, once you have updated to 2.1, your X8 is capable of recording 720p videos, as well as enhanced social network integration too.
