

Do you like big bikes?

Wednesday, 24 October 2007

I love to own a chopper. I think it's really cool riding one down the road. I have been a biker for close to 10 years now and it's really nice feeling the nice wind on your face. It feels almost like flying in the sky! Last time I prefer riding a bike over driving a car - but after I met my second accident, everything changed. I would prefer to drive a car rather riding a bike now. It's simply so dangerous. But it's still good old days.

Here's a scoop on these big bikes. Erm, it's actually a Harley Davidson fashion show. So just oogle at the girls rather than the bikes ok? :)

Hope you enjoy this real much as I do...
