

Funny Demon Video: Hellgate: Londo

Saturday, 15 December 2007

This is a pretty funny video on demons in Hellgate: London. Two chaps drinking in a bar talking about a 13 years old child trying to stab them in the heart. Pretty hilarious and nicely done. This game is driving me nuts! I tried installing the demo version and it caught me by surprise - the game requires SP2 to run. I've got only SP1. That's a huge bummer as this means that I'll never get this game to work in my machine. Enjoy the vid!
